SAFETY INFORMATION

ABOUT PHOTOSENSITIVE SEIZURES

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by:

- sitting farther from the television screen,
- using a smaller television screen,
- playing in a well-lit room, and
- not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

AVOID DAMAGE TO YOUR TELEVISION

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

OTHER IMPORTANT HEALTH AND SAFETY INFORMATION

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

For use only with Xbox video game systems with "NTSC" designation. Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

TREM LAND

A crazed wizard, a wheedling KING, a land replete with troublesome natives called TREMMELS, a collection of oddball athletes and a race for RED METEOR CHUNKS add up to a fast blast of knock-down speed!

On a far off island, HEX, a nearly rabid wizard, has delusions of world domination. But he needs the complete collection of RED METEOR CHUNKS to achieve it. Also, the TREMMEL KING stands — or is it sits? — in HEX's way. HEX's devious nature raises its ugly head. He coerces the KING into joining him in a diabolical scheme (is there any other kind?) advertising a galactic race open to all beings. A number of nasty characters sign up, bringing an unsavory melange of bad personal hygiene and rough manners to the melee. With the stated goal of racing to capture the RED METEOR CHUNKS (and win the pig and scepter!), the mayhem begins!

AMAZING RACING ABILITIES

Nine weird beings (don't ask from where), sign up to race. They come from families of BASHERS, DASHERS and GLIDERS. Each type has special abilities that give them a racing edge.

BASHERS bust through cracked doors and walls with ease, and view all enemies and opponents as bashable targets. While bashing, these racers are invulnerable to attacks, and they get a bit of a speed boost for a successful bash. Bash-FUL they're not!

DASHERS can speed up steep slopes that other characters can't even think about. They always have a little turbo boost available as long as their energy lasts.

GLIDERS can soar the extra distance over a pitfall or trap and evade enemies by taking flight. They get a rush from soaring over opponents to take the lead. They reach some areas more easily and can cut corners to shave seconds off their racing time.

TRIBRID ALERT!

Characters who collect 10 GREEN METEOR CHUNKS transform into TRIBRIDS and enjoy all three special abilities.

BASHERS

CHOPS

Gassy and crude, this is one true rebel hog. CHOPS' fascination with motorcycles may stem from the fact that he can't stand the smell when he's in a car with himself!

I'M GONNA BLOW
HAHAHAHAHAHAHAHA ... OOPS!

BIG BLU

BIG BLU stamped out of the underworld with a bigger than life tough-guy attitude. You'll want to make way for a guy that even chains can't hold. He's obviously an escapee ... but from where?

STAY OUTTA MY WAY. YOU GOT THAT, JACK?

BETTY

The only thing that tops the yak-factor of BETTY's sickening sweetness is her banshee scream. She loves to let off loud outbursts and is happiest with a wrench in her hand. A trip to BETTY's garage is a descent into a pit stop of pleasure.

BACK OFF, DROOL-CLIP, OR I'LL
STICK THIS WRENCH WHERE THE SUN
DON'T SHINE!

DASHERS

SID

SID thinks he's "da champ" and he's cocky 'tude proves it. He's a smacky little punk who tries too hard. But hey, ya gotta respect the effort. SID's the first to let you know he's a cool cat, not a kitty.

**CAN'T HIT WHAT YOU CAN'T SEE,
BIG BOY.**

CLAWDIUS

A roomin' Gladiator and a legend in his own mind, CLAWDIUS' pontifications are classic "fill-BLUSTER." But his slobbering lisp takes the punch out of his pompous pronouncements. Don't be fooled - CLAWD is a fierce king of the Tremmel Jungle.

YOU, THIR, ARE A THAVAGE!

SPANX

Once a lab weasel, SPANX is dealing with residual "issues." Spastic and nearly unintelligible, SPANX's comforted form is often wracked with awkward jerks and bursts of crude expletives.

IT'Z STARTING AGAIN ... ACK!

GLIDERS

ZERO-G

Loud. LOUD. A mutt with a drill-sarge complex, ZERO-G often dredges up his past war experiences (or is it delusions?). Can this dog's bite live up to his bark?

**I CAN FIT YOUR ENTIRE HEAD
IN MY MOUTH!**

ASH

ASH tries to be suave with his *La Dolce Vita* accent. You get the feeling he's making up for his lack of fire (humiliating for a dragon). Don't EVEN mention the size of his wings.

**I HAVE-A NO FIRE? I CAN STILL
BURN-A YOU BUTT-A.**

FAZE

A street-smart wise guy from another planet, FAZE took the wrong exit off the intergalactic turnpike. He uses his brash attitude like a set of brass knuckles. He's always ready to do some dirty work ... for a price.

TRY SAYIN' THAT TA MY FACE, TOUGH GUY!

- Your **ELAPSED RACE TIME** appears at the top right.

*I CAN FIT YOUR ENTIRE
HEAD IN MY MOUTH!*

YER STARTIN' TA BUG ME.

RACETRACK

DIRECTIONAL ARROWS

The track you'll race on winds crazily through the world, twisting in all directions. You may get turned around and unwittingly run backward past landmarks already seen. A "wrong way" message flashes when you're headed in the wrong direction. To avoid this, look for directional arrows — and head in the direction they point.

SKILL PATHS

Anybody can try these off-the-beaten-path alternate routes. See how long you can stay on the high road.

SPECIAL ROUTES

Even though you're racing at top speed, take time to notice where special routes branch off the track. Most of them are marked with sparkling **SPECIAL ABILITY MARKERS** — **DASHER**, **BASHER** or **GLIDER**.

Take the route designed for your character type to make the best time and use of your special ability. **TRIBRIDS** — those master racers — can use all three **SPECIAL ROUTES**.

DASHER (GREEN)

DASHER (BLUE)

GLIDER (RED)

OBJECTS & OBSTACLES

COLLECTIBLES are indispensable. Get as many pickups and powerups as you can en route. You need them to win! If you don't grab them, another racer could use them against you! (See pages 19 and 20.)

TURBO are good for a speed burst. **TURBO PADS** provide a speed boost when run across. Achieve maximum speed by hitting multiple **TURBO PADS** in a row. **TURBO RINGS** give you a boost when jumped through. These are most effective for **GLIDERS** and often mark a Glider special ability route.

SWITCHES can be stepped on or jumped through to activate something on the racetrack. Step on **RED BUTTONS** to trigger traps and open doors.

BOUNCE leverage you to a new high when you jump on them.

HAZARDOUS make the race way more interesting — by causing you grief! Watch out for crumbling edges,

hopping ledges, drawbridges, falling arches, whirling gears and other surprises too horrible to name.

TRAPS ambush you without warning and include rolling boulders, blasting TNT, toppling pillars and worse! Traps are triggered by switches.

POISONOUS GROUND hurts! Each level has its own flavor: ice, toxic waste, tar pits, green goo, etc. Carry bandaids.

PICKUPS

GREEN METEOR CHUNKS

The tracks are splattered with **GREEN METEOR CHUNKS**. They add up as you collect them (the count flashes on screen). Collect 10 chunks to become a "tri-deux-tious" **TRIBRID** with abilities to dash, bash and glide. If you get hit or harmed by anything, you lose five chunks.

HEX-A-COLA

Grab this cool thirst-quencher to refill your **JUICE BAR**.

THAT FELT
GOOOD.

POWERUPS

POWERUPS are weapons and special powers you can collect. They're stored in **RED SURPRISE BAGS**, so be sure to run over these to get the **POWERUPS** inside.

When you acquire a **POWERUP**, it's stored in the **POWERUP GLOBE**. Press **[Q]** to deploy it. (You can't collect another **POWERUP** until you use the one you already have.) If you don't grab a **POWERUP** and use it, someone else will no doubt use it on you—so think about it when deciding if you should take what's offered.

CHICKEN MISSILE Guided **CHICKEN MISSILE** tracks and wallops whoever's in front of it. Use stunts to dodge chickens at the last minute.

SPLIT Splits into **GLOWING CHUNKS**. Use the right thumbstick to aim. Be careful not to confuse them with meteor chunks.

FRUIT Bouncing fruit ricochets off surfaces until contacting an opponent, then ka-**BLAM!** Use the right thumbstick to aim before firing. Perishable fruit self-destructs after a few seconds if no target is found.

TRAIL OF TROUBLE Lay a **TRAIL OF TROUBLE** as you run. Other characters contacting the ribbon get knocked on their butts until it dissipates. See what clever places you can find for the ribbon, such as running zig-zag.

DISCO BALL SHIELD Gain a speed boost and invincibility all in one. While protected by the **DISCO BALL SHIELD**, you can knock down other runners.

FREEZE Freeze all other players in place. A button sequence appears, and affected racers must enter the sequence to unfreeze. When the timer runs out, anyone still frozen is knocked down and loses five **GREEN METEOR CHUNKS**.

GREEN METEOR CHUNKS Take five **GREEN METEOR CHUNKS** from the 1st place runner.

ENERGY Take part of the 1st place racer's energy.

WEAPON Take the 1st place runner's weapon.

ADVENTURE MODE

Race through the worlds of Tiram Land. Your goal is to recover the seven **RED METEOR CHUNKS** and save the world from **HEX**!

After you beat one or more levels, you can take a break from saving the world and try one of the **CHALLENGES**. On both the regular world tracks and the challenge tracks, your skillful performance can earn **STATUS DECALS** that unlock additional characters and levels.

If you feel a bit at sea navigating the tracks, try the **TRAINING** level.

STARTING A GAME

1. Select **ADVENTURE** from the Main Menu.
2. Select your player name at the top of the **ADVENTURE MODE** Menu. If you haven't already signed up (see page 9), select **PLAYER** to proceed to the Sign Up screen.
3. Select an **EMPTY** slot to begin a new game. OR select a game slot containing saved game data to resume a game in progress.

Note that you can save game data to the hard disk or to an Xbox Memory Unit.

SELECTING YOUR CHARACTER

At first, **SID**, **CHOPS** and **ZERO-G** are the only racers ready to go (one from each ability type). After you win several races with your selected character, more runners will show up and you'll be able to recruit two more racers to your team (one each from the remaining abilities).

SELECTING A LEVEL

When you begin a new game, only **TIKI VILLAGE**, the easiest level, is open. Once you finish in 1st place in **TIKI VILLAGE**, the medium difficulty levels are opened. You can play these levels in any order, but you must finish them all in 1st place to unlock the hard levels.

Once a level is open, it remains open in **ADVENTURE MODE** for the rest of the game. You can return to it to race again with another character or take one of the **CHALLENGES** (See page 26).

Note that on the level map, you can use the left and right triggers to set your music playlist for the level.

CHALLENGES

Challenge a level. If you beat it, you'll win a **STATUS DECAL** and get closer to opening up hidden levels and characters. (You must beat a level first in **ADVENTURE MODE** in order to challenge it.)

CASH CHALLENGES wants to know how greedy you are. Get 20 **HEX BUCKS** within the time limit to earn your **CASH DECAL** for the level.

TIME CHALLENGES keeps your eye glued to the clock. Finish the track within the target time and pick up your **TIME DECAL** for the level.

STUNT CHALLENGES is just plain fun. Perform a certain number of stunts within the target time and walk off with your **STUNT DECAL** for the level.

To take on a challenge:

1. Choose a challenge.
2. Choose any unlocked character.
3. Choose any level you've finished.
4. Go for it!

TRAINING

Wish you had a bit of assistance while learning how to play **MAD DASH RACING**? Select **TRAINING** from the **ADVENTURE MODE** Menu and run through **TKI VILLAGE** with helpful hints from **HEX**. To get a hint, run over a **HEX SIGN**.

STATUS DECALS

STATUS DECALS are awards you win by completing skill tasks within regular levels and by finishing level challenges. Piling up **STATUS DECALS** is great for your ego, plus it gets you closer to unlocking hidden levels and characters.

You win **STATUS DECALS** by:

- Pulling off a target number of stunts in **CHALLENGE MODE**
- Succeeding with a target number of attacks in **CHALLENGE MODE**.
- Beating every level with **CHOPS**, **SID** and **ZERO-G**
- Winning a **CASH**, **TIME** or **STUNT** challenge on a level.
- Winning all challenges on all levels.
- ...and more.

To view your **DECAL BOOK**, select **STATUS DECALS** from the **ADVENTURE MODE** Menu.

RECORDS

5. Roll!
